PERSONAL STATEMENT A passionate UI Design / Front-End Development lover, looking for opportunities to learn from the experienced champions in the field. For the past few months, I've been constantly focusing on learning different stuff in Front-End development and worked on multiple samples to showcase my progress.

I'm a motivated, hard-working, and flexible person who loves to help others to build a success path together as a team, and I'm looking forward to learning and trying new things while embracing the challenges through the way!

WORK EXPERIENCE

Aug 2021–Present **Front-End Developer**

Self-study learning journey

- Developing multiple websites as practices and POCs to tryout what I've been learning during the past few months
- Looking into different websites/applications to get a better understanding of different approaches and technics for implementing designs
- Working on multiple trainings and courses regarding HTML, CSS, SASS, Bootstrap, etc. in different learning platforms such as Pluralsight, Udemy, and sometimes also YouTube
- Trying out different technics for implementing similar components using different technics and approaches (i.e., Grids vs Flex, Using Bootstrap vs Designing my own stuff, CSS vs SASS, etc.)
- Studying JavaScript development, as well as Object Oriented concepts
- In conclusion, starting to get myself into the amazing world of Front-End design! I'm just at the beginning of this journey, but I'm so excited to go forward and so eager to learn and experience.

Mar 2017 - Aug 2019 **Customer Service**

IRSA, Tehran (Iran)

- Managing customer data in a management information system (MIS/DSS)
